tise concerning their business. All Other Notes

will be charged at the Regular Rates.

Extra display Advertisements and those with

large cuts, will be charged by the square foot, each inser-

tion.

Ordinary Notices of Deaths and Marriages, for ex-

ceptional services, will be charged by the square foot.

The News.

We have some further details, this morning, of the interesting news by the *Guardian*. The British are in full possession of Canton, having stormed and taken the city with comparative little loss. We have the list of the new British Military. Money matters are improving rapidly in England. The Bank of England has now eighty-five million in its vaults, and would, it is thought, soon reduce the rate of interest to 2½ per cent. American securities were in active demand at better prices.

The Anti-Leveeion Democracy of Ohio has had a large and splitted Convention at Columbus. Many of the strongest men in the party ranks were present, and assisting at this significant re-

birth of the much-maligned Villany of the age.

There is but little of interest from Wash-

ington. Mr. Seward, from the Select Committee in the House, on Leveeion frauds, has submitted a majority report, glossing over three in-

quiries and recommending the admission of Kansas under the Leveeion Constitution. Much opposition is manifested to giving Presi-

dent Buchanan any addition to the Army, Regi-

ulars, or Volunteers.

The result of the New Hampshire Election is an emphatic rebuke of the President's Kansas policy. The Republican majority is not far from five thousand.

The New York Produce Market is firm and moderately active. Money continues very abun-

dant and cheap. No material change in our

Home market yesterday.

The weather, yesterday, was delightful. The

sunshine was bright, and the air spring-like.

A GENERAL DEMOCRATIC PREScription.

The Baltimore Sun reports the Rev. Henry Storrs, sometime chaplain of the U. S. Senate and for many years a Democratic political preach-

er, to have thus delivered himself to the Bala-

more Conference, on Thursday of last week :

All the press and the editors have thrown

into the Atlantic, it would have been better for the church. The press was potent for evil as

well as for good, and we do not know that they should carry on

conversancy on the slavery question. There were

already more papers than they knew what to do with.

If the Sunday School Advocate did not

mind its ways it would soon be banished from this region, and all the good work of the Chris-

tian Church and Journal, on abolitionism, had

not been productive of any good.

No doubt, if the Reverend Storrs could suc-

ceed in his humane and enlightened project,

to suppress Slave agitation, by throwing all

newspapers and editors into the Atlantic, he

would earn a rich reward from the National

Democracy and their recognized lord and mas-

ter, King James the First. But there are tan-

gible physical, not to say moral difficulties, in the

way of the successful execution of the plan.

We like, however, the suggestion of the N. Y.

Express, that the Reverend Storrs be a Com-

mittee of one, to carry his plan into execution,

and for the convenience of the thing, we take

leave to recommend that all the editors present

themselves to date, to be docked on

recommended.

BEAVER DAM ELECTION.—The Charter Elec-

tion in Beaver Dam has resulted in the election of Mr. A. Scott Sloan, for Mayor, by a hand-

some majority; H. D. Patch, Treasurer, Mr.

Catlin, Marshal, and Mr. Hoskin, Street Commis-

sioner. Messrs. Sloan and Catlin are Re-

publicans and the others Democrats. The Al-

dermen elect are equally divided, four of each

party.

PROPOSALS FOR A STATE LOAN.—GOVERNOR

RANDALL has published the following notice, in

viting proposals for a loan of \$100,000, to run

five years, with interest at 6 per cent, payable

semi-annually in the City of New York. As our

State debt is, by the Constitution, limited to

\$100,000, this loan will doubtless be promptly

taken at fair rates.

EXECUTIVE OFFICE,

March 10, 1858.

Notice is hereby given, that from this time

until the 20th day of March, instant, at 1 P. M.

of said day, proposals will be received by

me at the Executive Office at Madison, for the

purchase of the following Bonds of the State of

Wisconsin, to-w<sup>m</sup>orrow.

NOTICE.—Mr. E. McCARRY, whom

the Wisconsin, of Wednesday, conspicuously

announced as a candidate for the Mayoralty at

the coming election, writes to the *Press*, that he

respectfully declines in favor of the editor of

the *Wisconsin*.

NOTICE.—A man whose name we could not

then, had his leg broken by being run over by

Engin. No. 7, as the Company were leaving

the station, and came to a standstill at the

House, at the alarm of Fire on Tuesday

evening. If there is anything in our Fire De-

partment that needs reprehension, it is the davi-

lomy-eare manner in which goss of the compa-

nies dash through the streets, and often upon

the sidewalks, whether going to, or returning

from the sides.

NOTICE.—In speaking of the Watertown Railroad

airly yesterday, we were in error in saying that

Judge Rice was still held to bail. There was

no evidence to show that the Judge had any

thing to do with the disturbance, and he, with

the others whose names we have published,

were consequently discharged.

NOTICE.—An Agent Extraordinary—PROFESSOR

SUNK.—Between 2 and 3 o'clock this afternoon,

the proprietor *Globe*, belonging to the

W. H. Conner, at the Michigan

Central dock. She had taken on about 150

cwt. and a number of bags, and was on the point

of starting for the other side when the cable

broke, and rushed to the starboard side, by

which means she was suddenly capsized.

About two hours were spent in saving her

cargo, ten or twelve of which swam for the

Carroll shore, and about a equal number passed down

with the current. Some of the balance, after

swimming around in the harbor for some time,

were got ashore alive, and were, and were

generally slaughtered to "save them." Others

were generally discharged.

NOTICE.—Police Court Yesterday.—Martin Kling and

Stephen Sovill, were fined \$1 each for being

indicted on "quating" in a day or two.

NOTICE.—The trials were the only case in the

Police Court yesterday—quiet a contrast with

the crowded court of the day previous.

SWING MACHINES FOR \$16.—Attention is

called to the advertisement of Rixford & Dimock

in another column.

They are said to be the best single thread machine in

use.

NOTICE.—The ENGLISH MONEY MARKET.—The Europe-

an money is very fluctuating in price, and

such sudden transac-

tions are reported as

occurred.

NOTICE.—The stock market is in a

quiet condition, and

the English stocks cur-

rently quoted are

as follows:

NOTICE.—The ANNUAL MEETING OF THE STOCKHOLDERS OF THE MILWAUKEE RAILROAD COMPANY, for the election of Directors, and for the transaction of such other business as may be necessary, will be held on the 23d day of April next, at 12 o'clock noon, at the office of the Company, in the city of Milwaukee, on the corner of Spring and Water Streets, between the Old and New Ferry-boats.

MILWAUKEE 12:  
FRIDAY MORNING, MARCH 12.

Summer Seward's Speech.

We commence this morning, and shall conclude in our next, the publication of Senator Seward's great speech in the U. S. Senate, in opposition to the Lecompton Swindle. Friends and foes of this eminent Senator and Statesman alike concur in the opinion, that this speech is not only one of the ablest of his efforts, but is masterly exposition of the vital questions at issue. It was listened to, with profound interest and attention, by all parties in the U. S. Senate, and by a distinguished auditory of citizens and strangers. It has already been published in hundreds of newspapers in different parts of the United States, and will doubtless receive a wider circulation among the people than any speech yet delivered on this present theme. We commend it to each and all of our readers as a masterpiece of logic, eloquence, Constitutional law and American Statesmanship.

"Bull! Black Bull! How Moon Woot!"—"Great cry and little wool" is the ruling characteristic of the anti-Lecompton party, Indiana, Connecticut, and Pennsylvania—the glorious old Keystone—have approved through their Democratic State Conventions, the policy of the President, and the Constitution, he is triumphantly sustained!—"News of yesterday,

It is by no means a difficult matter to sustain the President, in caucuses and conventions packed and controlled by Federal Office holders and office seekers, as were those in Connecticut and Pennsylvania. But when a direct appeal is taken to our people, it is a very different affair. That has just been tried in New Hampshire, for years and years the stanchest Democratic State in the Union, and the result is that the administration, instead of being "triumphantly sustained," has been utterly and overwhelmingly defeated. The ball thus started by the "Old Granite State" will roll irresistibly over every Free State in the Union. The spirit of liberty is not yet dead among the Americans people.

EMIGRATION TO WISCONSIN.—The Coming Season.—In relation to this subject, the Appleton Crescent very correctly asserts that Emigrants to Wisconsin will find a better opening next summer than for years past. They will be able to buy Wild Lands at second hand, at lower prices than at any time within the last three years; and the Produce and Provision market being so depressed will prove an advantage to them.—The prices of grain and provisions will probably not reach so low a figure as at present, within the next ten years. So that, next summer, a man can buy, break up, and set in motion a farm, for just about one half the expenditure it would cost him in 1856. Eastern men who are not afraid of work, had better come early in the season.—It is unreasonable to expect a continuance of such low prices for more than six months to come.

Starting Disclosures.—The African Slave Trade opened at the South. From the New Orleans Data.

Some startling and significant facts have come to our knowledge. We have hesitated to disclose them, until we could get reliable confirmation; we are convinced that both duty and policy demand disclosure. The facts, we say, are startling; they are critical. They will surprise and encourage many in our counting-rooms and offices, and many of the plantations and in the towns, but most of all they will astound us in the West, and confirm our suspicion that the slaveholders are in their hands—brought the fangs of their wrath; although the President may be shocked and embarrassed; and although the great parties of the country may be bitterly disappointed and embarrassed, if it go to the South, and if the law, and expand the African Slave Trade with the South; that Africans are now imported into Mississippi and other slave states; that in Mississippi there is a market for African slaves, and that plantations in that state are daily becoming more and more impotent for work, as they are the day before.

That, in the beginning, the nationality of the slave was absolute, it is now being reversed. That whereas, heretofore, the National Government favored this change of balance from the Slave States to the Free States, it has now reversed this policy, and opposes the same.

That national intervention in the Territories in favor of slave labor and Slave States; is opposed to the natural, social, and moral development of the Republic.

It makes the nationality of the slaves, in all the states, except those which are at the day before, entirely indeterminate. We have no advice that in Mississippi, Henry Hughes and some of his party now privately urge the "Labor" Immigration north, and that they are in the process of doing so, but to legitimate, moral, regular, and legitimate, the only openly adopted and impossible to be closed. We have some further details.—Some negroes are disengaged on the Atlantic coast and brought over land to the Mississippi cotton fields; the principal seat of cotton, and the convenience of Pearl River in a chain net for distribution, are not overlooked.

The profits of the Mississippi Slave Trade are enormous. We have been fortunate to procure from undoubted authority some interesting details. They relate to the operations of the Mississippi Slave Traders, and to the slave market in the South; but, to legitimate, moral, regular, and legitimate, the only openly adopted and impossible to be closed. GOV. SEWARD'S GREAT SPEECH  
ON THE LECOMPTON SWINDE.

Delivered in the U. S. Senate, March 2.

Mr. President: Eight years ago we slew the Whim Provisos in the Senate Chamber, and bid it with triumphal demonstrations under the roof of the Capitol. Five years later, or as long as the life of the Territories, we have labored under the Federal laws and regulations, and published and proclaimed in its pages a new gospel of popular sovereignty, whose ways, like those of wisdom, were to do good, and whose ends, and all their works, were signs of peace. Nevertheless, the question whether there shall be Slavery or not in the Territories, is again the stirring passage of the day. The restless Provos, who have burst the bonds of the grave, and striking home at the heart of the nation, have made a new religion of popular sovereignty, now man, now among the Administration benches in each House of Congress. Thus an old, unswallowed lesson is read to us. The question whether there shall be Slavery in the Territories, is again the stirring passage of the day. The restless Provos, who have burst the bonds of the grave, and striking home at the heart of the nation, have made a new religion of popular sovereignty, now man, now among the Administration benches in each House of Congress. Thus an old, unswallowed lesson is read to us.

Five years later, or as long as the life of the Territories, we have labored under the Federal laws and regulations, and published and proclaimed in its pages a new gospel of popular sovereignty, whose ways, like those of wisdom, were to do good, and whose ends, and all their works, were signs of peace. Nevertheless, the question whether there shall be Slavery or not in the Territories, is again the stirring passage of the day. The restless Provos, who have burst the bonds of the grave, and striking home at the heart of the nation, have made a new religion of popular sovereignty, now man, now among the Administration benches in each House of Congress. Thus an old, unswallowed lesson is read to us.

Mr. President: Eight years ago we slew the Whim Provisos in the Senate Chamber, and bid it with triumphal demonstrations under the roof of the Capitol.
